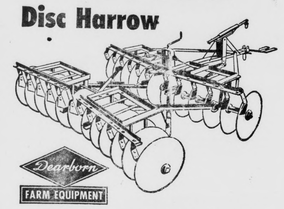
We want to introduce you to a NEW and BETTER Disc Harrow



● When you hook this Dearborn disc harrow to a Ford Tractor, you are all set for Hydraulic Touch Control of the gangs. You take the angle out for turning, or crossing grass and gullies . . . then put the angle in again . . . by moving the little control lever right by your tractor seat. You'll disc lots of dirt in an hour . . . nice and level too . . . with either the 6 ft. or 7 ft. width.

Quickly attached by inserting four pins. Sturdy steel angle frame, high carbon heat treated steel discs. Zerk lubrication of white iron bearings, protected against dust and dirt. Front and rear gangs leveled by one crank. See it!

Ford TRACTOR

Genuine parts and expert service on all Ford Tractors and Dearborn Farm Equipment.

PULLIAM MOTOR SALES

Ford Motor Co., Dearborn Motors Corporation

Two Row Stalk-Cutter

The two row stalk-cutter is turned on its skids for transport between fields. Vicious reversed twin cutting blades on reel remove soil rising on cutter blades, the tool levels corn stalks so the ground can be prepared mucc easily for the next crop. Arc welding makes a rigid frame that is required when the cutter is hauled through a field behind a tractor.

2, 4-D Spray Proves Fatal To Some Woody Plants

Many woody plants, including willows, are partially killed by 2, 4-D sprays. Killing of large shrubs or trees cannot be expected. The spray may be used, however, to prevent resprouting of susceptible species by applying as a concentrated spray to reprouts after the trees and shrubs have been cut. Repeated applications will be necessary to prevent further growth.

Many Democrats cheer Truman program.

Uncle Sam Says

You do not need to be a crystal ball gazer to figure out the truth of the saying that the future holds for you what you hold for the future.

If you look into your present you'll find the answer to how much security you can count upon for yourself and your family. Are you bringing home United States Savings Bonds regularly? Millions of my nieces and nephews know that these bonds are among the most essential assets to hold for their future because savings bonds are safe and profitable.

Latter Days of Jesse James

Life of Jesse James after his "death" makes the early days of this outlaw pale in comparison. After receiving his identity as the famed outlaw, Frank Dalton" confided these adventures to a Chicago woman. After the shooting by which he was popularly believed killed, James toured Europe with a circus. Returning to the U. S. he moved to Indian territory and was appointed U. S. marshall. At one time he chaired many of the gunmen with whom he had operated. He went to Brazil with a scientific expedition to study head hunters, fought with the Canadian army in France during World War I and put in a year hunting ivory in Africa. Later he entered a horse for Confederate soldiers, still under the name of "Dalton".

How Hybrid Corn is Produced

"Families" of corn are bred here for generations. Plants were made to fertilize themselves. This is comparatively simple with corn. Pollen from a plant is sprinkled on the tassels of the same plant. The plant is kept from meting with any other plant. After many generations of this inbreeding, two families of plants, entirely unrelated, are "mated" to each other. Pollen from plants of one family is sprinkled on the tassels of another. Results are startling. The new plants, called "true hybrids", produce far more corn on far fewer acres, and with less labor, than ever has been possible before. Now a way has been found to do inbreeding successfully with an insect—the bee.

"Self Service" for Meat Markets

America's food industry is now considering the pre-packaging of meats which will enable housewives to serve themselves at the butcher's counter. There are, of course, many difficulties in the way of presenting fresh meat in this way, such as refrigeration, special counters, preparation, pricing and others. "Levels of efficiency now considered visionary can be reached by America's food industry," says Sidney R. Rabb, chairman of the Super-Market institute. "Using the nation's super markets as a working laboratory, we can develop many ways of cooperating with the grower, processor and manufacturer, yes, even with the government."

Cities Need "Small Change"

Because of higher transit fares, several cities have had to get millions more small coins for "small change". Detroit has increased its street car fare from 10 to 13 cents; Chicago upped its street car fares from 10 to 11 cents, and its elevated fares from 12 to 13 cents. Transit fares have been increased in 44 of the nation's largest cities in the last two years.

U. S. exhibits its air power over cities in Germany. Russia also moves up new jet planes.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

By LOUIE D. NEWTON, D. D.

SCRIPTURE: Jeremiah 32:6-15; 36-37; 43:5-6.
DEVOTIONAL READING: Psalms 82.

Baruch, The Scribe

Lesson for August 1, 1948

Dr. Newton

BARUCH, whose name means "blessed," was the grandson of Maaseiah, "governor of the city" under Josiah (II Chronicles 34:8), and his father, Neriah, appears to have been an official during the reign of Jehoiakim. He was a trusted friend of Jeremiah (Jeremiah 32:6-15 and 43:5-6). Tradition holds that Baruch was carried to Babylon, where he wrote the apocryphal "Book of Baruch," and died in 574 B. C. twelve years after the fall of Jerusalem.

Our golden text for this lesson is found in Psalms 119:105, "Thy word is a lamp unto my feet, and light unto my path."

• • •

OUR BIBLE

"THEN Jeremiah called Baruch, the son of Neriah, and Baruch wrote from the mouth of Jeremiah all the words of the Lord, which he had spoken unto him, upon a roll of a book. And Jeremiah commanded Baruch, saying, I am shut up; I cannot go into the house of the Lord. Therefore go thou, and read in the roll, which thou hast written from my mouth, the words of the Lord in the ears of the people in the Lord's house upon the fasting day; and also thou shalt read them in the ears of all Judah that come out of the cities," Jeremiah 36:4-8

How did we get our Bible? Through this simple process of God speaking through his appointed prophet, and by the faithful work of men like Baruch who served as scribes.

• • •

THIS SCRIBE OF LONG AGO

IN THE introductory paragraph I sketched briefly the story of Baruch. He was a trained man, trusted and beloved. This he had to be, else God would not have approved Jeremiah's selection of Baruch to copy what he was saying for God. And not only was he selected to write down what God was saying, through his prophet, but he was used to proclaim the words of God to the people in the Lord's house. Baruch was amanuensis, reader and distributor of the Bible—a distinguished role, indeed. Let us today be gladly ready to read the Bible to others, and to distribute and circulate the Scriptures wherever we may. Here I pause to pay tribute to the American Bible Society and all others, including the Gideons, who help to make the Bible known to all men everywhere.

• • •

A MAN ON WHOM GOD COUNTED

THUS we see that Baruch was a man on whom God counted His work was done well, and we read that, "When they heard all the words, they were afraid both one and other, and said unto Baruch, We will surely tell the king all of these words."

Young people will do well to ponder this incident. In the varied contacts of young Christians in this modern day, we may be used of the Holy Spirit in making known the words of God in countless ways. Thus, like Baruch, you may be used of God to make known his will unto all mankind.

• • •

BARUCH, A COURAGEOUS SCRIBE

THE full context reveals the fact that Baruch exhibited courage as well as faithfulness in his service as scribe to Jeremiah. It was not an easy task. Nor will it be easy to fill our posts as couriers of the Good News. But it was a rewarding experience for Baruch. He served his day and generation according to the will of God.

Mr. Henry Ford, Sr., believed in having a copy of the Bible near at hand wherever he might sit down in his home. I heard him say once that he had a Bible on every table in his home. "I do this in order that I may reach over and spend a few minutes with the Lord wherever I may sit down. And I always cherish the hope that others will find it a lamp unto their feet and a light along their daily pathway."

Let us give thanks for Baruch—the trusted friend who served Jeremiah, and thus served God.

Conduct

Fundamentally, the force that rules the world is conduct, whether it be moral or immoral. If it is moral, at least there may be hope for the world. If immoral, there is not only no hope, but no prospect of anything but destruction of all that has been accomplished during the last 5,000 years.

—Nicholas Murray Butler.

Can Black-Draught Help An Upset Stomach?

Yes, Black-Draught may help an upset stomach if the only reason you have an upset stomach is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental haziness, bad breath—and if these symptoms are due only to constipation — then see what Black-Draught may do for you. Get a package today.

. . . the human ingredient . . .
in the unbeatable combination

On the Norfolk and Western Railway's Roanoke, Va., shop assembly line, men like these build a modern 70-ton all-steel hopper coal car* in 48 minutes.

The construction of these sturdy cars is one of thousands of jobs which go on ceaselessly behind the scenes of the railroad's operation. The workers who build them are an important group of the many thousands of Norfolk and Western employees. *But these men typify the human ingredient which helps to make the Norfolk and Western* Precision Transportation.

Good railroad transportation requires modern and efficient facilities from the roadbed up. It requires sound, progressive operating methods . . . and the teamwork of Norfolk and Western employees with trained minds and skilled hands . . . with the sense of responsibility which creates the human desire to see the job well done . . . and with the experience which assures railway shippers that the job of providing dependable rail service *will* be well done.

This is the vital human ingredient in the unbeatable combination.

*Today, the Norfolk and Western is building and has on order 4,000 *more* 70-ton hopper coal cars, which will cost more than $17,000,000. When they are completed the railroad will own in excess of 52,000 coal cars of various capacities — cars especially designed to fit the requirements of coal producers the N. & W. serves, and the distributors and consumers throughout the nation.

Norfolk and Western Railway
